To Whom It May Concern

I am writing to recommend **Shehryar** for admission to your university. I have had the opportunity to teach him in *Planning a Computing Project, Fundamentals of AI, Computing Research Project,* and ***App Development.*** In each of these courses, he has consistently performed well, earning Distinctions and demonstrating a strong understanding of fundamental computing concepts.

What makes **Shehryar** stand out is his dedication to learning and his ability to apply what he has learned in a structured and thoughtful manner. In *Computing Research Project*, he took the initiative to explore topics in a detailed manner, producing work that was well-researched and clearly presented. In ***App Development***, he has shown a keen interest in how different technologies come together, and his coursework reflects a practical approach to learning.

Apart from academics, Shehryar has actively contributed to the university as the **Head of the Student Council**, showing strong leadership and organizational skills. Additionally, his **five years of experience in the tech industry** as a **Senior Content Editor at Tech4Gamers** give him a real-world perspective that enhances his academic growth. Given his consistent performance and active involvement in both academic and extracurricular areas, I believe he would be an excellent candidate for any merit-based scholarships that recognize academic excellence and leadership.

I have no doubt that Shehryar will make the most of the opportunities at your institution. Please feel free to contact me if you need further details.

Sincerely,

Ali Ahsan Rizvi
